Andritz: The New York Power Authority (NYPA) has awarded ANDRITZ a contract to supply five new generator stators for the Robert Moses Power Plant. ANDRITZ will design, manufacture, and supply five new 215 MVA generator stators to replace several of the existing RMPP's 13 units. ANDRITZ was selected as a vendor by the Power Authority after an open competitive solicitation. The plant's modernization and digitization, under the Next Generation Niagara (NGN) upgrade program, will help secure the reliable supply of renewable electricity for New York State and support its ambitious decarbonization targets.

Top Picks: Raiffeisen Research analysts have made some changes to their Top Picks list in their April review. Nike, UniCredit, Zalando, and Vonovia have been removed, while Enel, E.ON, Fresenius, Equinor, and Shell have been added. The experts explain the new additions: "In the market phase we anticipate, energy, consumer staples, healthcare, and utility stocks traditionally show relative outperformance. Therefore, we have specifically adjusted our allocation in favor of these sectors." The list now consists of: Amazon, AMD, Banco Santander, E.ON, Enel, Equinor, EVN, Fresenius, Kapsch TrafficCom, Merck, Microsoft, Mondelez, Novo Nordisk, OMV, Palfinger, Rosenbauer, SAP, Sanofi, SBO, and Shell.

Vienna Stock Exchange: A volatile market environment, characterised by geopolitical upheavals, led to exceptionally high trading activity on the Vienna Stock Exchange in the first quarter. At EUR 26.07 billion (Q1 2025: 18.5 bn), equity turnover in the first three months reached its highest level in 15 years. The ATX, including dividends, reached an all-time high at the close on 18 February (14,195.81 points), before the conflict in the Gulf region put international markets under pressure. On 23 March, Palfinger AG replaced CPI Europe AG in the benchmark index. The market capitalisation of domestic companies listed in Vienna amounted to around EUR 181 billion as of 31 March.

FRIDAY

03

EPH: EPH Group AG reached a preliminary agreement with a landowner on the acquisition of a resort project in Vorarlberg/Austria. The project property is located directly next to a cable car station and offers immediate access to a large and snow-reliable ski resort with a high-quality alpine offering. A resort of at least 4-star category with 499 beds is planned. A building permit has already been granted for the project. However, the implementation of the project planned by EPH requires obtaining an amendment permit. No cash purchase price is to be paid for the acquisition of the resort project. Instead, consideration will be provided through the free allocation of a defined number of parking spaces in the underground garage belonging to the future hotel, which will be constructed by EPH at its own expense.
